

## Equality Impact Assessment (EIA) (v4.0)

Legislation requires that our policy documents consider the potential to affect groups differently and eliminate or minimise this where possible. This process helps to address inequalities by identifying steps that can be taken to ensure equal access, experience and outcomes for all groups of people.

### Step One – Policy Definition

<b>Function/policy name and number:</b>	Clinical Effectiveness Policy
<b>Main aims and intended outcomes of the function/policy:</b>	To support clinicians with the process for undertaking activities relating to clinical effectiveness
<b>How will the function/policy be put into practice?</b>	<p>The purpose of this Policy is to set out a framework for the conduct of Clinical Effectiveness activity within the Trust. It provides standards and guidance for all staff participating in Clinical Effectiveness activities. It includes the Trust's procedures and expectations:</p> <ul style="list-style-type: none"> <li>• For registering and approving Clinical Effectiveness activities.</li> <li>• For developing and designing Clinical Audit projects.</li> <li>• For monitoring any improvements made as a result of Clinical Audit and re-audit where appropriate</li> <li>• For reviewing all national guidance such as NICE or Safety alerts, assessing level of compliance and providing ongoing assurance of compliance</li> <li>• For reviewing recommendations from national reports</li> </ul>
<b>Who will be affected/benefit from the policy?</b>	Staff
<b>State type of document</b>	Policy
<b>Is an EA required?</b> NB :Most policies/functions will require an EA with few exceptions such as routine procedures-see guidance attached	Yes
<b>Accountable Director:</b> (Job Title)	Medical Director
<b>Assessment Carried out by:</b>	Head of Clinical Effectiveness
<b>Date Completed:</b>	31/01/2025

To help you to determine the impact of a strategy or policy, think about how it relates to the Public Sector Equality Duty, the key questions as listed below and prompts for each protected characteristic are included Step 3:

- Eliminate unlawful discrimination, victimisation, and harassment
- Advancing equality of opportunity
- Fostering good community relations

## KEY QUESTIONS

- Are people with protected characteristics likely to be affected differently even though the policy is the same for everyone?
- Could there be issues around access, differences in how a policy is experienced and whether outcomes vary across groups?
- What information /data or experience can you draw on to indicate either positive or negative impact on different groups of people in relation to implementing this function policy?

## Step Two – Evidence & Engagement

<p>What evidence have you identified and considered? This can include research ((national, regional ,local) surveys, reports, NICE guidelines, focus groups, pilot activity evaluations, clinical experts or working groups, information about Dudley’s demographics, The Dudley Group equality and diversity reports, Joint Strategic Needs Assessment (JSNA) or other equality analyses, Workforce Race and Disability Equality data, anecdotal evidence.</p>		
<b><u>Research/Publications</u></b>	<b><u>Working Groups</u></b>	<b><u>Clinical Experts</u></b>
<a href="#">Care Quality Commission (CQC) (2015) Guidance for providers on meeting the regulations.</a>	Clinical Effectiveness Group	Clinical Effectiveness Lead
<a href="#">General Data Protection Regulation 2018</a>	Medicine Divisional Governance and Risk Group	Clinical Audit Facilitator
<a href="#">Caldicott Principles 2020</a>	Clinical Core and Community Services	Deputy Head of Clinical Effectiveness
<a href="#">Health Act 2009</a>	Surgery Governance and Assurance Meeting	
<p>Engagement, Involvement and Consultation:</p> <p>If relevant, please state what engagement activity has been undertaken and the date and with which protected groups:</p>		
<b>Engagement Activity</b>	<b>Protected Characteristic/ Group/ Community</b>	<b>Date</b>

N/A		
For each engagement activity, please state the key feedback you have received and then use this in step 3. List a summary of the Feedback in the 'list of feedback received' column, then add your mitigation and then your action to address.		

**Summary of the feedback: N/A**

## Step Three – Assessment of Impact

Complete **relevant** boxes below to help you record your assessment

Consider information and evidence from previous section covering:

- Engagement activities
- Equalities monitoring data
- Wider research

**Also, consider due regard under the general equality duty, NHS Constitution and Human Rights.**

Positive Impact HIGH MEDIUM LOW	Negative Impact HIGH MEDIUM LOW	Neutral Impact Cross in the box if no impact is identified	<ul style="list-style-type: none"> <li>• List concerns raised for possible negative impact</li> <li>OR</li> <li>• List beneficial impact</li> </ul> (utilise information gathered during assessment)	Mitigation  List actions to redress concerns raised if a negative impact has been identified in the previous column	Lead [Job title]	Time-scale	How are actions going to be monitored/reviewed/reported? (incl. after implementation)
Positive OR Negative Impact (not both)							
<b>1) Age</b> Describe age related impact and evidence. This can include safeguarding, consent and welfare issues:							
		<b>X</b>					
<b>2) Disability</b> Describe disability related impact and evidence. This can include attitudinal, physical, communication and social barriers as well as mental health/ learning disabilities, cognitive impairments:							
		<b>X</b>					
<b>3) Gender re-assignment</b> Describe any impact and evidence on transgender people. This can include issues such as privacy of data and harassment:							
		<b>X</b>					
<b>4) Marriage and civil partnership</b> Describe any impact and evidence in relation to marriage and civil partnership. This can include working arrangements, part-time working, and caring responsibilities:							

		X					
<b>5) Pregnancy &amp; Maternity</b> Describe any impact and evidence on pregnancy and maternity. This can include working arrangements, part-time working, and caring responsibilities:							
		X					
<b>6) Race</b> Describe race related impact and evidence. This can include information on different ethnic groups, Roma gypsies, Irish travellers, nationalities, cultures, and language barriers:							
		X					
<b>7) Religion or Belief</b> Describe any religion, belief or no belief impact and evidence. This can include dietary needs, consent and end of life issues:							
		X					
<b>8) Sex</b> Describe any impact and evidence on men and women. This could include access to services and employment:							
		X					
<b>9) Sexual Orientation</b> Describe any impact and evidence on heterosexual people as well as lesbian, gay and bisexual people. This could include access to services and employment, attitudinal and social barriers:							
		X					
<b>10) Other marginalised groups e.g. Homeless people</b> Describe any impact and evidence on groups experiencing disadvantage and barriers to access and outcomes. This can include lower socio-economic status, resident status (migrants, asylum seekers), homeless, looked after children, single parent households, victims of domestic abuse, victims of drugs / alcohol abuse: (This list is not exhaustive)							
		X					
<b>11) Privacy, dignity, respect, fairness etc.</b>							
		X					

# **EQUALITY IMPACT ASSESSMENT (EIA) -** **GUIDANCE NOTES**

An equality impact assessment (EIA) ensures that issues of equality, diversity, and inclusion are considered when developing or revising strategies, policies, or proposals that affect the delivery of services and the employment practice of the Trust.

## **Why should we carry out an EIA?**

We are required to carry out equality impact assessments because:

- There is a legal requirement to do so in relation to the protected characteristics
- They help identify gaps and making improvements to services
- They help avoid continuing or adopting harmful policies or procedures
- They help you to make better decisions
- They will help you to identify how you can make your services more accessible and appropriate
- They enable the Trust to become a better employer

## **Equality Impact Assessments help us to:**

- Determine how Trust strategy, policies and practice, or new proposals, will impact or affect different community groups, especially those groups or communities who experience inequality, discrimination, social exclusion or disadvantage.
- Measure whether strategies, policies or proposals will have a negative, neutral, or positive effect on different communities.
- Make decisions about current and future services and practice in fuller knowledge and understanding of the possible outcomes for different communities or customer groups.

## **What do we need to assess?**

Trust policies are subject to a 3-year review. Alongside the reviews, new policies will emerge. Most policies, strategies, and business plans will need an EIA.

However, EIAs are not required for changes in routine procedures, administrative processes, or initiatives that will not have a material impact on staff, patients, carers, and the wider community. Examples include checking the temperature of fridges, highly technical clinical procedures, office moves, etc.

## **DGFT Process for EIAs**

The revised EIA process is a single-stage process carried out in three steps

### **Step One: Policy Definition**

This involves a description of the policy details. This is the fact-finding stage where you gather as much information about the strategy, policy or function you intend to assess. Who will be using the service, policy or function and the outcomes you want to achieve. It is important to make sure that your service, policy or function has clear aims and objectives.

## **Step Two: Evidence and Engagement**

EIAs should be underpinned by sound data and information. This should be sought from various sources:

- The knowledge and experience of the people assisting in the service.
- ONS local demography/ Census data: [Census Maps - Census 2021 data interactive, ONS](#)
- Service monitoring reports / Divisional reports
- Patient satisfaction surveys
- Workforce monitoring reports
- Complaints and comments
- Outcome of consultation exercises
- Feedback from focus groups
- Feedback from organisations representing the interests of key target groups
- National and local statistics and audits [Joint Strategic Needs Assessment - All About Dudley Borough](#)
- Academic, qualitative and quantitative research
- Ward/ Divisional reviews
- Anecdotal data

This stage allows you to identify whether your strategy, policy or function has a positive or negative or potential negative impact on the protected characteristics. In some cases, an initial EIA is all you will need to establish whether you are providing equal outcomes for staff or patients. If you receive no feedback or concerns, you can mark each characteristic in section 3 as a neutral impact.

## **Step Three: Assessment of Impact**

This is the main and the most important part of the EIA.

To help you determine the impact of the strategy or policy, consider how it relates to the Public Sector Equality Duty. The key questions and prompts for each protected characteristic are listed below.

- Eliminate unlawful discrimination, victimisation, and harassment
- Advancing equality of opportunity
- Fostering good community relations

The real value of completing an EIA comes from the actions that will take place and the positive changes that will emerge through conducting the assessment. To ensure

that the action plan is more than just a list of proposals and good intentions, the following should be included:

- Each action be attributed to a key person who is responsible for its completion
- An achievable timescale that is also at the same time reasonable
- Relevant and appropriate activities and progress milestones
- How the action will be monitored/reviewed

## **KEY QUESTIONS**

- What information /data or experience can you draw on to indicate either a positive or negative impact on different groups of people with implementing this function policy
- Are people with protected characteristics likely to be affected differently even though the policy is the same for everyone?
- Could there be issues around access, differences in how a service or policy is experienced and produces outcomes that vary across different groups
- Does the policy relate to the Trust's equality objectives?

NB It is important that mitigation measures be identified and acted upon where an adverse impact is known or likely.

## **Step Four: Assurance**

This section enables the EIA to be signed off by a head of or director for the area. This will provide assurance to the equalities team that the EIA has been thoroughly and thoughtfully conducted.

## **Help & Support:**

The equalities team will provide advice and support throughout the EIA process. Once you have completed your EIA, you must submit these documents to the procedural documents team, who will then ask the equalities team to sign off on the final version of the form.

For training, guidance and resources, including completed example forms, please visit the equality, diversity and inclusion hub pages: [Equality, Diversity & Inclusion - Policies and Guidelines](#).

## **Copies of the EIA:**

The manager who completed the strategy or policy review should keep copies of the form to be monitored/revisited at the following policy review. Procedural documents will also keep a copy on file. All EIA will then be published on our external web pages to demonstrate due regard for the Public Sector Equality Duty.
